The Puerto Rico Electric Power Authority (PREPA) has released an RFP (RFP#3800, Power Advocate Event 139303) on January 27, 2023, for the Engineering, Design, Manufacturing, and Construction of New Peaking Units for the Power Stations Daguao, Jobos, and Palo Seco. Through this RFP, PREPA seeks to obtain proposals for the engineering, manufacturing, permits processing and approval, and construction for the installation of up to 60 MW of power at the Daguao Gas Plant, up to 90 MW of power at the Palo Seco Gas Plant, and up to 50 MW for Jobos Gas Plant. There will be two (2) units per station for Daguao and Jobos, both units per site will have the same production capacity. For the Palo Seco site there will be three (3) units, all with the same capacity. The RFP represents the purchase and installation of a maximum of 200 MW of power to be dispatched, in compliance with the Integrated Resources Plan (IRP), as approved by the Puerto Rico Energy Bureau on August 24, 2020, and additional resolutions and orders issued by the Puerto Rico Energy Bureau.

This notice provides background information for the RFP, as well as the expected Scope of Services. This notice includes a summary of estimated key dates that will allow proper planning for interested proponents. The purpose of this notice is to provide public knowledge of the RFP, in an effort to encourage an open and fair participation in this process.

**EXPECTED SCOPE OF SERVICES:**

The (RFP #3800, Event 139303) will request proposals for the engineering, design, manufacturing, permit application, construction, and commissioning of seven (7) peaking units, two (2) for the Daguao Power Station, two (2) for the Jobos Power Station, and three (3) for the Palo Seco Station.

All resources requested through the RFP must comply with the technical specifications and supplementary documents.

**ESTIMATED KEY ACTION DATES:**

The following are the expected key dates for the initial phase of the RFP:

- **RFP Released to Public January 27, 2023**
- **Kick-Off Presentation February 13, 2023**
- **Proposal Submission Deadline & Commencement of Evaluation Phase May 1, 2023**

Each proponent interested in submitting a proposal in response to the RFP must register in PowerAdvocate®, the web-based sourcing platform used by PREPA to manage this RFP. To register in PowerAdvocate®, please access to www.poweradvocate.com. Once registered, a proponent must request access to the RFP event #3800. Access to the Kick-Off presentation will be made available to registered proponents through event 139303 of the PowerAdvocate® platform.

For technical assistance with the sourcing platform application, please contact PowerAdvocate®s technical support at (857) 453-5800, or by email at: support@poweradvocate.com.
