### Managing Consultant

Eugene.granovsky@navigant.com  
30 S. Wacker, Suite 3100  
Chicago, IL 60606

Direct: 312.583.5700

#### Professional Summary

Mr. Granovsky is a Managing Consultant in the Navigant Consulting Energy Practice where he focuses upon Regulatory and NERC compliance matters. He has constructed numerous rate design and cost-of-service models and has assisted other practice areas in standardizing their analytical models.

He previously worked in the Process Systems Engineering department of CB&I, an oil and gas engineering, procurement, and construction company where his chief roles were in the electrical design, instrumentation management, and field commissioning teams.

#### Professional Experience

##### *Navigant Consulting*

- » Created a retail electric provider's customized pricing model in preparation of market competition in the Philippines.
- » Created numerous cost-of-service and rate design models that allocated the utility's functional revenue requirement among the existing tariff classes for a variety of utilities, including bill impact and proof of revenue calculations.
- » Conducted research and industry interviews, and prepared analysis for a U.S. Department of Energy report relating to non-utility distribution wires and development of combined heat and power (cogeneration) applications.
- » Managed a NERC Mandatory Reliability Standards audit preparation project, including writing policies, procedures, QRSAs, and coordinating necessary documentation.
- » Edited chapters of a historical summary of NERC Compliance, which was published by Lexis/Nexis in conjunction with Navigant.
- » Prepared presentation material of reasonable interconnection points for new 600MW natural gas generation within PJM, based on available client sites and 2012 load flow predictions.
- » Computed a coal plant's Reliability-Must-Run (RMR) value in preparation for NYPSC and FERC testimony filing.

## Eugene Granovsky

Special Consultant

### *CB&I*

- » Through cooperation with drafting team, generated construction-ready design drawings used by CB&I field installation teams.
