

**Note: Removal of FY17 PREPA's Financial Statements from PREPA's Website**

Subsequent to the reissuance of BDO auditor's report on the financial statements of Puerto Rico Electric Power Authority (The "Authority") for the year ended June 30, 2017, the Authority identified certain accounting and financial reporting errors that should have been recognized as of June 30, 2017. In response the Authority did not engage BDO to reissue its report. The revised Authority's financial results for 2018 have been already published to the general public, which include the correction of the Authority's beginning balances as of June 30, 2017.

A copy of the 2018 Authority's report can be obtained at:
